Translation/Rairana

Kieia Ataei Hospital was built on Tabiteuea North for the Southern islands in the Gilberts Group, however until now it has not been fully used as expected. Its buildings are beginning to show signs of wear and tear because of long periods of non-occupancy where they become children's playground. If this continues without anything done to this place it will be in real trouble.

Does Government have plans to change this around by using this Hospital as originally envisaged?
